## Member Updates

### Announcements

- **The American Stormwater Institute, LLC** now offers courses in a live setting and online that deal with developing the knowledge and skills required to conduct stormwater inspections. Our courses are based on a “Real World” attitude of finding implementable solutions to the challenges that stormwater inspectors face every day. The state and federal regulations require that “QUALIFIED PERSONS” conduct inspections related to stormwater permits. The overarching goal of the ASI classes is to ensure that our students are well qualified to conduct these inspections. For a list of all classes offered click [HERE](#).
- **Non-standard MS4 Permit PDD** Template and Program Strategy Templates. SPLASH members and SEMSWA worked with CP Compliance to create resources to educate permittees. It may also assist permittees with implementation of the new Non-standard MS4 Permit. Please click [HERE](#) to access the material.

### Adjournment

Next Meeting: **July13, 2023**
